----------	--	---	---

Summary	Highly motivated recent graduate with a strong foundation in data science and software development seeking an entry-level role to leverage analytical and programming skills. Eager to contribute to a company's success through innovative solutions and a dedication to continuous learning.
---------	--

Education	Coimbatore Institute of Technology Master of Computer Application 7.5 Sri Krishna Adithya College of Arts and Science Bachelor of Information Technology 6.7	Oct 2022 - Present MCA Jun 2018 - Apr 2021 B.Sc IT
-----------	---	---

Projects	Predictive Analysis of Electrocardiogram for Cardiovascular dieases AI & ML Utilized Python and machine learning algorithms to perform predictive analysis of electrocardiograms, contributing to early detection and intervention in cardiovascular diseases and arrhythmias. Software for Agriculture Using AI AI Developed AI-powered software for precision agriculture, optimizing crop yields, resource allocation, and pest control. Enhanced farm productivity by integrating machine learning algorithms for data-driven decision-making. Implemented real- time monitoring and automation, reducing operational costs and increasing sustainability.	Oct 2023 Apr 2018
----------	---	------------------------------------

Skills	Programming Languages Intermediate PYTHON, JAVA, SQL, HTML, CSS Data Science & ML Frameworks & Libraries Tensorflow, Scikit-learn, pandas, Matplotlib, Numpy, Pytorch	Data Science Tools Apache Spark, Tableau, PowerBi, Google Analytics, jupyter notebook, Excel, Git Operating System Linux, Windows, MacOS
